PROJECT CASE STUDY II

Question 1

Answer:

```
 List of Location with Number of Fundings is
given as:
Bangalore - 637
Mumbai - 449
New Delhi - 389
Gurgaon - 241
Noida - 79
```

Maximum Funding is done in Bangalore , 637 times.

Explanation:

Firstly, I used replace function to correct the names of the cities. Then I have used Dictionary to count the number of funding in each specified location. Then I have used Numpy library to find the city with the maximum number of funding in startups.

Question 2

Answer:

```
Top 5 Investors are:
Sequoia Capital - 64
Accel Partners - 53
Kalaari Capital - 44
SAIF Partners - 41
```

Indian Angel Network – 40

Explanation:

I have made use of Dictionary and List to count the number of funding done by different investors. Then with the help of Numpy I found out the top five investors.
